

You can play an integral role in the Akbari Lab as we continue to make progress toward revolutionizing vector control of mosquitoes. By financially supporting the lab, you will help fund critical research needs, student researchers, and outreach opportunities that broaden the scope of our work.

To make a financial contribution to support the impactful research of the Akbari lab, please make checks payable to the UC Regents. Include "Dr. Akbari Research" on the memo line and mail to:

UC Riverside
Department of Entomology
900 University Ave
Riverside, CA 92521

If you need any assistance or would like to discuss specific support areas in the Akbari Lab, please contact the Development Team for UCR's College of Natural and Agricultural Sciences at 951.827.3278.
